This book review series
presents current trends
in modern

Page 75/79

Acces PDF A

Mab A Case

biotechnology. The aim is to cover all aspects of this interdisciplinary technology where knowledge, methods and expertise are required from chemistry, biochemistry, microbiology, genetics, chemical engineering and computer science. Volumes are organized topically and provide a comprehensive

Acces PDF A

Mab A Case

discussion of
developments in the
respective field over the
past 3-5 years. The
series also discusses
new discoveries and
applications. Special
volumes are dedicated
to selected topics which
focus on new
biotechnological
products and new
processes for their
synthesis and

Acces PDF A

Mab A Case

purification. In general, special volumes are edited by well-known guest editors. The series editor and publisher will however always be pleased to receive suggestions and supplementary information.

Manuscripts are accepted in English.
