Grid Subtraction Worksheets

A 100 square is a visual aid for teaching maths or solving simple equations. The numbers between 1 and 100 are laid out in a 10 x 10 grid so that they are in order and all visible at once. This can help young learners to visualise the numbers up to 100 and use them to find solutions to certain maths problems.

The aim of the books in this series is to involve children in exploring, investigating, and practising adding, subtracting, multiplying and dividing in order to perfect their number skills.

Motivate and engage students in grade 2 with Math Activities Using Colorful Cut-Outs™. This 112-page book is filled with skills-based, interactive math activities that are fun to use and easy to prepare. It includes more than 40 activities that focus on estimating, writing number sentences, adding and subtracting money, making change, telling time, and identifying place value. The book also includes leveled activities, a skills matrix, an assessment matrix, and reproducible cutouts and aligns with state, national, and Canadian provincial standards.

These activities provide for the systematic development of key mental skills, through teacher-led whole-class activities. Related, unit by unit, to the Teacher Cards they provide enough material for a different ten minute mental warm-up each day.

The Targeting Maths for Victoria scheme is VELs compliant. It has been written for CSF II and provides complete coverage of the course with student books that are clear, fun and easy to use.

Aimed at pupils requiring further enrichment and extension, the challenge books develop able pupils' mathematical understanding within a unit. They use open-ended and problem solving activities, but require minimum teacher input and minimum use of additional materials.

Help students in grades K-1 master the skills necessary to succeed in math using Math Practice. This 128-page book allows for differentiated instruction so that each student can learn at his or her own pace. It is perfect for extra practice at home or school and includes more than 100 pages of exciting activities! The activities cover skills such as counting, sequence, number words, addition, telling time, shapes, and patterns. The book includes 96 durable flash cards and an award certificate.

Each unit in the "New Abacus" programme begins with whole-class teaching. All the direct teaching to introduce a concept is on the front of the Teacher Card; the back has: further teaching; references to differentiated practical activities, workbook or textbook pages and photocopy masters.
