Alfred Hitchcock: A Life in Darkness and Light is the definitive biography of the Master of Suspense and the most widely recognized film director of all time. In a career that spanned six decades and produced more than 60 films - including *The 39 Steps*, *Vertigo*, *Psycho*, and *The Birds* - Alfred Hitchcock set new standards for cinematic invention and storytelling. Acclaimed biographer Patrick McGilligan re-examines his life and extraordinary work, challenging perceptions of Hitchcock as the "macabre Englishman" and sexual obsessive, and reveals instead the ingenious craftsman, trickster, provocateur, and romantic. With insights into his relationships with Hollywood legends - such as Cary Grant, James Stewart, Ingrid Bergman, and Grace Kelly - as well as his 54-year marriage to Alma Reville and his inspirations in the thriller genre, the book is full of the same dark humor, cliffhanger suspense, and revelations that are synonymous with one of the most famous and misunderstood figures in cinema.

Winner of the 2022 Edgar Award for Best Biography An Economist Best Book of 2021 A fresh, innovative biography of the twentieth century's most iconic filmmaker. In *The Twelve Lives of Alfred Hitchcock*, Edward White explores the Hitchcock phenomenon-what defines it, how it was invented, what it reveals about the man at its core, and how its legacy continues to shape our cultural world. The book's twelve chapters illuminate different aspects of Hitchcock's life and work: "The Boy Who Couldn't Grow Up"; "The Murderer"; "The Auteur"; "The Womanizer"; "The Fat Man"; "The Dandy"; "The Family Man"; "The Voyeur"; "The Entertainer"; "The Pioneer"; "The Londoner"; "The Man of God." Each of these angles reveals something fundamental about the man he was and the mythological creature he has become, presenting not just the life Hitchcock lived but also the various versions of himself that he projected, and those projected on his behalf. From Hitchcock's early work in England to his most celebrated films, White astutely analyzes Hitchcock's oeuvre and provides new interpretations. He also delves into Hitchcock's ideas about gender; his complicated relationships with "his women"-not only Grace Kelly and Tippi Hedren but also his female audiences-as well as leading men such as Cary Grant, and writes movingly of Hitchcock's devotion to his wife and lifelong companion, Alma, who made vital contributions to numerous classic Hitchcock films, and burnished his mythology. And White is trenchant in his assessment of the Hitchcock persona, so carefully created that Hitchcock became not only a figurehead for his own industry but nothing less than a cultural icon. Ultimately, White's portrayal illuminates a vital truth: Hitchcock was more than a Hollywood titan; he was the definitive modern artist, and his significance reaches far beyond the confines of cinema.

One of cinema's greatest directors, a virtuoso visual artist, and a genius of the suspense genre, Alfred Hitchcock (1899-1980) is universally known for such masterpieces as *Strangers on a Train*, *Rear Window*, *Vertigo*, *North by Northwest*, *Psycho*, and *The Birds*. John Russell Taylor, a distinguished film critic and friend of Hitchcock's, enjoyed his full cooperation. Based on numerous interviews, with photos from the private family albums, and an in-depth study of the making of his last film, this biography of the director is as intriguing, revealing, perverse, and entertaining as any Hitchcock classic.

Alfred Hitchcock rigorously controlled his public image, drawing certain carefully selected childhood anecdotes into full focus and blurring out all others. In this gripping short biography, Peter Ackroyd wrests the director's chair back from the master of control to reveal a lugubriously jolly man fond of practical jokes, who smashed a once-used tea cup every morning to remind himself of the frailty of life. Iconic film stars make cameo appearances throughout Hitchcock's story, just as the director did in his own films: Grace Kelly, Cary Grant, James Stewart and, perhaps most famously of all, Tippi Hedren, who endures cuts and bruises from a fearsome flock of real birds. Perceptive and intelligent, Alfred Hitchcock is a fascinating look at one of the most revered directors of the twentieth century.

IT'S ONLY A MOVIE is as close to an autobiography by Alfred Hitchcock that you could ever have. Drawn from years of interviews with her subject, his friends and the actors who worked with him on such classics as *THE BIRDS*, *PSYCHO* and *REAR VIEW WINDOW*, Charlotte Chandler has created a rich, complex, affectionate and honest picture of the man and his milieu. This is Hitchcock in his own voice and through the eyes of those who knew him better than anyone could.

Time magazine's legendary, award-winning film critic Richard Schickel sat down on numerous occasions with frighteningly talented movie director Alfred Hitchcock. Spoiler alert: He learned what made the man behind *The Birds* fly. Here, in this short-form book, is Hitchcock's story.
