Case # 1: Problems in measuring GDP When things are traded in a market, or embedded in government tax statistics, they are relatively easy to measure. Many of our measurement difficulties arise precisely because some of the most valuable things are not easily measurable. GDP easily captures the output

Macroeconomics Case study 1 Problems in measuring GDP...

Macroeconomics is the science which studies economics in general and its various processes and rules. Macroeconomics as a separate branch of economics appeared not long ago and is considered to be quite a young study. Nevertheless, the first ideas about the global economics sounded already in the 15th century. The key problems which are studied by macroeconomics are: economical development and its factors; unemployment; the general level of prices; circulation of the finance; national budget ...
