Please note: this book was written and published prior to Manning's identification as Chelsea. Beginning in early 2010, Chelsea Manning leaked an astounding amount of classified information to the whistleblower website WikiLeaks: classified combat videos as well as tens of thousands of documents from the war in Afghanistan, hundreds of thousands from Iraq, and hundreds of thousands more from embassies around the globe. Almost all of WikiLeaks's headline-making releases of information have come from one source, and one source only: Chelsea Manning. Manning's story is one of global significance, yet she remains an enigma. Now, for the first time, the full truth is told about a woman who, at the age of only twenty-two, changed the world. Though the overarching narrative in media reports on Manning explain her leaks as motivated by the basest, most self-serving intentions, Private paints a far more nuanced, textured portrait of a woman haunted by demons and driven by hope, forced into an ethically fraught situation by a dysfunctional military bureaucracy. Relying on numerous conversations with those who know Manning best, this book displays how Manning's precocious intellect provided fertile ground for her sense of her own intellectual and moral superiority. It relates how a bright kid from middle America signed on to serve her country and found herself serving a cause far more sinister. And it explains what it takes for a person to betray her orders and fellow troops—and her own future—in order to fulfill what she sees as a higher purpose. Manning's court-martial may be the military trial of the decade, if not the century. This book is a must-read for anyone who wants to understand the woman behind it all.

Winner of the Pulitzer Prize for Explanatory Reporting In this Pulitzer Prize-winning collection, Washington Post reporter Eli Saslow traveled across the country over the course of a year—from Florida and Texas to Rhode Island and Tennessee—to examine the personal and political implications and repercussions of America's growing food stamp program. Saslow shows us the extraordinary impact the arrival of food stamps has each month on a small town's struggling economy, the difficult choices our representatives face in implementing this \$78-billion program affecting millions of Americans, and the challenges American families, senior citizens, and children encounter every day in ensuring they have enough, and sometimes even anything to eat.

These unsettling and eye-opening stories make for required reading, providing nuance and understanding to the complex matters of American poverty. An eBook short.

A woman's body is discovered on a Cornish farm, battered and left for dead in a maize field. As she's airlifted to hospital, her life hanging in the balance, no one's sure who she is. Three days later she comes round. She knows her name - Evie - but no more, until she remembers another name: Angel - her three-year-old daughter. As the police circulate Evie's photo, someone recognizes her. Charlotte knew her years ago, at school, when another child went missing. When the police search Evie's home, there's no sign of Angel. More disturbingly, there's no evidence that she ever lived there.
