Service and Support — B. Braun

B. Braun Infusion Pump Systems Clinical Services help you make a smooth transition while working toward your ultimate goal of reducing medication errors. In fact, by using intuitive and reliable B. Braun “smart” infusion pumps, hospitals can reduce infusion pump medication errors to zero.

Infusion Pump Implementation Services — B. Braun Medical Inc.

Automated Infusion Systems. B. Braun Space is a modular infusion system that is small, light, and easy to use. The Infusomat Space volumetric pump and the Perfusor Space syringe pump are the basic building blocks of the Space system. Braun’s “One Infusion System for all Therapies” approach, makes it possible to use one pump along the entire clinical pathway, for all hospital applications, setting the standard for clinical processes and patient safety.

Automated Infusion Systems — B. Braun

With its one-stop solution, B. Braun Space sets the basis for seamless integration of one pump into a variety of therapy fields. Ranging from Infusion to Nutrition as well as Pain Therapy to Anti-Cancer, Pediatrics and Neonatology, just to name a few. Across all therapies, B. Braun Space provides healthcare professionals with a secure, digitally-enhanced solution that optimizes patient comfort, reduces staff times and handling, while being intrinsically reliable at all times.

Space Infusion Pumps One pump for all therapies — B. Braun

The field of infusion therapy implies the treatment of a patient with intravenously applied infusion solutions in order to enable a patient’s recovery or improvement of his illness. Depending on the underlying illness, the solution contains an appropriate active pharmaceutical ingredient. This defines the type of definitive therapy: For example, fluid therapy aims to infuse larger volumes of ...
