BEKO TECHNOLOGIES provides comprehensive service agreements for customers who attach great importance to the efficiency and security of their investment and would like to calculate with fixed maintenance costs over a fixed, agreed period of time. Our service agreements are tailor-made to your individual needs and requirements.

A behind-the-scenes look at the inner workings of America's overburdened criminal justice system is revealed through the eyes of John O'Mara, a tough, streetwise homicide investigator, and Jan Scully, a former sex-crimes

prosecutor turned D.A., as they deal with a series of shocking crimes, real-life legal dramas, and controversies over the course of a year. Reprint.

"The aim of this report is to define and review this "semi-aquaculture practice", which has been more accurately named "capture-based aquaculture." -- Preface.

"Introduces ways to use film to introduce complex literary theories to students, coupling works of literature with attendant films to encourage classroom discussion. Includes psychoanalytic criticism, cultural criticism, and thematic criticism. Then offers a survey of the image patterns into which film adaptation theories can be grouped and how these theories relate to literary theory"--Provided by publisher.

The second edition of this volume has been updated with chapters on scar treatment using laser, microneedling, tissue engineering, adipose tissue and lipofilling. It compiles the perspectives of a multi-author team, examining the entire spectrum of burn reconstruction and long-term treatment. Individual updated chapters cover basic aspects of wound healing and scarring, and plastic surgery relating to tissue rearrangement and the use of flaps, as well as the long-term use of skin and skin substitutes. Furthermore, it addresses topics such as rehabilitation and scar management in detail. It provides comprehensive reconstruction guidelines organized by anatomic region (e.g. face, hands, ...) as well as future trends and prospects in burn reconstruction, such as allotransplantation and bionics. Please also have a look at the volume "Handbook of Burns Volume 1 - Acute Burn Care 2nd edition"

The two-volume set of LNCS 11655 and 11656 constitutes the proceedings of the 10th International Conference on Advances in Swarm Intelligence, ICSI 2019, held in Chiang Mai, Thailand, in June 2019. The total of 82 papers presented in these volumes was carefully reviewed and selected from 179 submissions. The papers were organized in topical sections as follows: Part I: Novel methods and algorithms for optimization; particle swarm optimization; ant colony optimization; fireworks algorithms and brain storm optimization; swarm intelligence algorithms and improvements; genetic algorithm and differential evolution; swarm robotics. Part II: Multi-agent system; multi-objective optimization; neural networks; machine learning; identification and recognition; social computing and knowledge graph; service quality and energy management.

Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand names, and trademarks - right at your fingertips.

This superb book tells the story of one of the most historically interesting of all Jaguar D-types, the XKD 504. This is a car that has raced more than any other D-type across its long and varied life, and this life is recounted in full. From its role as a works car used extensively for testing fuel injection, to two seasons of racing throughout Europe with Ecurie Ecosse, to four busy years of national competition in the hands of first Mike Salmon and then Peter Sutcliffe, it's all here. This book provides fascinating insight into every aspect of this D-type's history, supported by a fine collection of period photographs.
