Leaders in education meet the global challenges of our time.

This resource shows educators how to establish dynamic curriculum leadership and develop a curriculum that will transform an ordinary school into a school of excellence.

Curriculum Leadership Development is an up-to-date, user-friendly textbook offering unique approaches to help readers understand the complexity of curriculum leadership. It is grounded in current and relevant theory, research, legislation, and application in the closely related areas of curriculum leadership, development, and scholarship. The text solidifies the concepts of curriculum and leadership in experiential learning contexts, and promotes democratic action and critical thinking. Author Carol A. Mullen uses a descriptive, qualitative approach that integrates case study, data analysis, personal reflection, and lessons learned. Among the most important elements of the book are: *the inclusion of the voice and curricular experiences of the professional student who is a seasoned teacher or beginning administrator; *detailed illustrations of practitioners' experiences as curriculum makers and action researchers; *an articulation of the links among curriculum development, constructivist curricula, and mentoring scaffolds; and *practical exercises to accompany case studies. Graduate and advanced undergraduate students in education will find this textbook of value in their coursework, as will curriculum professionals who teach practicing teachers.

Access Free Curriculum Leadership Readings For Developing Quality Educational Programs 10th Edition The Allyn Bacon Educational Leadership Series

Moving beyond alignment and national boilerplate standards, this book takes the position that curriculum and instruction are inseparable concepts from the institutional point of view, and presents strategies to ensure their congruency. To achieve student success it is imperative that educational leaders have superb knowledge and skills in curriculum and instructional leadership whether they operate from the central office or the building level. Bradley contends that paper and pencil tests to measure student achievement on basic and minimum skills will certainly remain as one criterion of school evaluation. However, the public and the educational community will continue to demand the maximizing of potential for all students as an evaluation component of equal value and importance. The educational leader of today and tomorrow will need the knowledge and skills to facilitate this two-pronged approach to student achievement through curriculum design, development, implementation, and evaluation. Curriculum Leadership has, as its purpose, the preparation of leaders to facilitate this process.

Your best resource for curriculum leadership post-NCLB and beyond! Put quality curriculum front and center with this classic toolkit to savvy curriculum leadership for the 21st Century. Newly revised and updated case studies, research, and state and national curriculum and leadership standards complement a completely new section focused on emerging technologies. New features include: Major chapter revisions with research on ESSA, CCSS and more Up-to-date information on

Access Free Curriculum Leadership Readings For Developing Quality Educational Programs 10th Edition The Allyn Bacon

Professional Standards for Educational Leaders Concrete examples of district-level curriculum mapping, planning, and integration New information on professional growth, state curriculum frameworks, online assessments, SBAC, PARCC, and adaptive testing

Although traditional curriculum and instructional leadership frameworks have dominated educational administration training for almost thirty years, it has become increasingly clear that even the most recent frameworks have failed today's leaders who struggle with the politics of curriculum decisions on a daily basis. *Critical Curriculum Leadership* is an examination of curriculum leadership in the wake of U.S. testing mandates and school reforms, all of which seem to support a particular set of conservative ideologies. Drawing from her own longitudinal ethnographic study and from existing literature and research in the field, Ylimaki explores the formation of curriculum leadership in relation to broader cultural and political shifts. She shows how traditional leadership frameworks have come up short, and makes the case for an alternative leadership theory at the intersection of educational leadership and curriculum studies. She provides analytical tools that inspire progressive education and offers critical theories, strategies, research examples, problem-posing cases, and research ideas essential for curriculum leadership in the present conservative era. *Critical Curriculum Leadership* will appeal to the many educational leadership scholars and practitioners who are interested in developing effective and socially just curricula in their schools and districts as well as curriculum scholars who are
