High Performance Neon Builder's Handbook is your one-stop shop for all the information you need to get the maximum performance out of your Dodge Neon. This comprehensive book details everything including available Neon models, suspension and braking improvements, drivetrain modifications, and working on a budget. Engine modifications are extensively covered, including specific details about intake systems, exhaust systems, ignition and fuel systems, short-block modification, and thorough coverage on heads, cams, and valvetrain. A helpful chapter on how and where to go racing is also included, as well as a handy source guide. If you want to make your Neon the hottest sport compact on the street, this is the book for you.

In Comeback, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.
