This revised and expanded third edition of the gold-standard for intervention provides clear steps for harnessing the power of family, friends, and professionals to create a better future with loved ones suffering from addiction. Over the course of the last twenty years, Love First has become the go-to intervention guide for tens of thousands of families. This trailblazing book empowers and equips families and friends to use the power of love and honesty to give their addicted loved ones a chance to reach for help. Updated with the latest addiction science as well as insights gained from decades of front-line experience in family interventions, this revised and expanded edition contains practical tools for taking the next step together: transforming the intervention team into an ongoing community of loving support, lasting accountability, and lifelong recovery.

Parental drug use can cause serious harm to children. *Adult Drug and Alcohol Problems, Children's Needs* supports practitioners in their work with families where parental drug use leads to concerns about children's welfare. The training resource contains: · summaries of the key messages for practitioners · tools and tips to support effective practice · training and development activities · practice examples from around the UK. This second edition has an increased focus on alcohol misuse and reflects recent changes to both policy and practice. The book will be useful for all individuals and agencies involved with families where parents are struggling with substance abuse, including children's social workers, substance misuse workers, primary care and school staff, criminal justice agencies, obstetric and paediatric teams, substitute carers and a range of voluntary and community services.

The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

What are the effects of psychoactive drugs on aspects of human behaviour, such as creativity, memory and sexuality? How effective are such drugs in treating mental disorders? How are new drugs tested and licensed? An intriguing introduction to the study of psychopharmacology, this fully revised and updated edition of *Drugs and Behavior* presents a unique analysis of the ways in which human behaviour is affected by drugs, rather than simply by categories of drugs. The text covers the principles of neurotransmission, pharmacokinetics and drug classification. Issues of new drug development, including drug dangers and benefits, legalization and the prevention and treatment of drug abuse, are also discussed.
