The 'Arab Spring' of 2011 has affected the countries of the region to varying degrees, including the Gulf Cooperation Council (GCC) members, comprising Saudi Arabia, Kuwait, Qatar, the United Arab Emirates, Oman and Bahrain. The GCC has become a significant regional bloc playing a vital economic and political role far beyond its shores, given its geopolitical strategic location, a preponderance of global energy reserves and a major international player through the use of accumulated financial reserves. A new Gulf is rising, one that is more self assertive, looking to expand its membership to other Arab countries such as Jordan and Morocco, while at the same time strengthening the bloc's relationship with current and emerging trading and strategic partners in Europe, USA and Asia. Regional and international realities, especially the uncertainties unleashed by the 'Arab Spring', are forcing Gulf leadership to initiate new policies involving closer cooperation amongst GCC countries to address emerging challenges. This volume brings together thirty renowned academics and specialists to examine a range of multifaceted social, political and economic issues facing the GCC in key areas such as: · Diversification from a high dependency on a narrow hydrocarbon base · Social transformation, youth employment and effective gender participation · Outward and inward foreign direct investment flows · Prospects for education reforms and e-learning. · Sustainable security in oil, renewable energy (including nuclear) and food · Corporate governance, transparency and enhancing the private sector's operating environment · The role and governance of Gulf Sovereign Wealth Funds in investing their surpluses. The volume also offers insights for challenges facing the GCC in monetary union, expanding the regional debt market and Sukuk issuance, GCC intellectual property rights application, detailed assessments of individual GCC country risk analysis, as well as the sustainability of long term government fiscal stimulus programs at the expense of private sector involvement.

so by reading the summaries of the essays. An additional and special feature of this book is that it emphasizes on the holistic and ethical aspects of development. This aspect is least covered by most standard text books on the subject. In that sense this book will serve as a make up for the deficiencies of the text book materials in terms of ethical orientation, essence, and higher goals of development. We gratefully acknowledge the generosity of the publishers and authors of all the research works from where the materials have been compiled for use in this book. Similarly we are profoundly thankful to all the scholars, particularly to Prof. Golam Dastagir of Jahangirnagar University, Dhaka, and Prof. Munir Quddus of Prairie View A&M University, Texas, for their critical comments on the draft of the book. Specially, we are profoundly thankful and grateful to Prof. Datuk Dr. Syed Othman Alhabshi for writing the scholarly foreword of this book. Finally, we remain thankful to Universiti Malaysia Perlis, Malaysia and the International Islamic University Chittagong, Bangladesh for jointly publishing this book.
