The Firat Guide is a tool, first of its kind, to supplement the process that every family goes through when preparing a middle school student to enter private high school. The Firat Guide answers those questions that run through every parent and student's mind: Where do we start? What schools are the best? Should I send my child to the school that all his or her friends are attending? What is the value of each school? Cost vs. Benefits? How will the school we choose affect our child's extracurricular activities? And many more... Ibrahim Firat, President and CEO of Firat Educational Solutions, LLC, is the author of The Firat Guide, and it is subjective. The Firat Guide will discuss the strengths of each school. There is no one school that is the best school for all students reading The Firat Guide. Firat Educational Solutions, LLC and Ibrahim Firat have always had the philosophy that each student is different, and there is a school for each. Each student has particular goals, interests, personalities, and learning requirements. The Firat Guide will help you decide which school is right for your child. The Firat Guide will also assist you in the process of choosing the schools to which you would like to apply, tips on the application process, test taking timelines for entrance exams, how to decide which school to actually attend once accepted, and how to successfully transition from the middle school to the high school mindset. Leave behind the rumors and what everybody else has said. Read The Firat Guide - in its entirety. Read the reviews of the schools that you have been considering for your child. Take notes. Read the reviews of the schools which you have not originally considered. You may find a nuance or two that resonate - not only with you but with your child. Take notes. Once the guide is finished, speak to your family and compare notes (everyone in the household must "buy in" to this process). Discuss the pros and cons of each school under consideration with your family. Ask for his/her opinion - have him/her explain reasons. Create a list of 3-6 high schools, and take the next steps to prep. The Firat Guide started out as a compiled list of schools and data. Firat Educational Solutions, LLC (FES) gathered data from each of the private high schools in the Greater Houston Area. This data included items such as number of students, student-to-teacher ratios, religious affiliations, and much more. This data, along with a questionnaire, was sent out to the admission directors of each of the private schools. The questionnaire asked them to discuss some main points about their schools, and they were asked to update the data that we sent them from their websites, if needed. The Firat Guide is more up-to-date than many of the school websites.

Follow along with Story as he takes siblings Linda and George on a journey through space and time to see community organizing in Black-owned barbershops across Minnesota. Learn with Linda and George as they discover what organizing for justice is all about! Join the adventure and see how kids like you can make a powerful difference in the world.

Reframing the Curriculum is a practical, hands-on guide to weaving the concepts of healthy communities, democratic societies, and social justice into academic disciplines. Developed for future and practicing teachers, this volume is perfect for teacher education courses in instructional design, social foundations, and general education, as well as for study in professional learning communities. The author outlines the philosophies, movements, and narratives shaping the future, both in and out of classrooms, and then challenges readers to consider the larger story and respond with curriculum makeovers that engage students in solving problems in their schools, communities, and the larger world. The book ' s proven method for designing units gives educators across grades and disciplines the tools to bring sustainability and social justice into experiential, project-based instructional approaches. Pedagogical features include: Specific examples and templates that offer readers a framework for working their units and courses while meeting required standards and incorporating innovative classroom practices. Activities and discussion questions that bring the content to life and establish ties with the curriculum. eResources, including a Facilitator ' s Guide, offering examples of fully developed units created with this model and an editable template for redesigning existing units.

Morgan is a vibrant and energetic young girl with a creative imagination and enjoys exploring the world. As the sun shines bright through the windows, Morgan prepares for an adventure at the park. "A Day at the Park" is not just about a young Black girl spending a day at the park, but it is about sharing a memorable experience with her diverse group of friends and her mother. She enjoys a picnic and exercise. Morgan ends her day thinking, "I wonder what we will do tomorrow."

Are your federal benefits at risk? Are we at the point of every man/woman for themselves? FedSavvy will take you through the complexities of the federal retirement system so that you can make informed decisions about your financial future. Federal Employees have some great benefits, however, going through the maze to figure out if you are taking advantage of them can sometimes be complicated. At present, most federal employees are feeling threatened because the Congressional Budget Office is dangling a knife over their benefits. Build a meaningful and profitable retirement profile, by understanding: • How to calculate your CSRS and FERS pension • Documents you will need to have • The best dates to retire • Credit for unused sick leave and annual leave • How does Social Security affect the CSRS annuity • VCP - the best benefit for CSRS and CSRS Offset • How to not only save but allocate your funds in the Thrift Savings Plan • Sequential Income Planning with TSP • Magic Numbers for TSP • An understanding of the Federal Insurance Programs: FEHB, FEGLI, and FLTCIP
