"Hot-Blooded is hardcore; no holds barred, throw you to the floor and rip your heart out." ?Reviews by Mel "Hot sex, kick-ass female lead character, paranormal, suspense, and tons of emotion. I couldn't put it down." ?Filmchick To Keahlilani Alana, family is everything. When her mother dies, Keahlilani must take charge of her siblings, but with an underage brother and no education, she's out of both money and options—until she discovers the valuable secret her mother hid on the slopes of an extinct volcano. Blake Murphy is an assassin working to infiltrate a Hawaiian cartel. He's got his sexy surf instructor Keahlilani pegged as a criminal—and not just because the passion between them is too hot and too dirty to be legal. But the secret Keahlilani discovered is bigger—and darker—than ties to a drug ring. As reality unravels and exposes truths about her family that should have remained deep under the mountain, Keahlilani must either resist the call of her blood or risk losing everything to its darkness. When Keahlilani's family is threatened, the only cure for her hot-blooded fury is a loaded clip with a body bag chaser. Book 1 in Kendall Grey's 'OHANA paranormal thriller series

As the toughest son with the fewest morals, Man? Alana promised his mother that he'd protect his siblings. Since her death, he's embraced his role as the family heavy, but killing is the one part of his job he hates. And the awful nightmares driving him to commit violence aren't doing him any favors—nor is the sinister, ancient magic calling to him from under the slopes of a dormant volcano. A shakeup in power between rival drug lords reveals a half brother Man? didn't know he had, complicating the Alana family's plans to take over the marijuana trade on Maui. Not only that, but one wrong move could turn the sexy cop he's involved with against the family. When a crime the Alanas fought hard to bury is exposed, their whole cartel is in danger. Now Man?'s blood has him trapped between two clans: the siblings he's loved since they were kids, and the ruthless, shadowy kin he just learned he has. Man? can either succumb to the darkness threatening to drag him under or tap in to its power and embrace his role as a cold-blooded killer. Book 2 in Kendall Grey's 'OHANA paranormal thriller series "Kendall Grey reminded me why I love paranormal so much! The characters, the world-building, the plot—everything about COLD-BLOODED drew me in from the first page and kept me on the edge of my seat right up until that final, gasp-inducing sentence. Five stars aren't enough for this book!" —Emily Snow, New York Times and USA Today bestselling author

Book 1 in the Hard Rock Harlots Series WARNING: STRINGS is not suitable for slut shamers, upright stone throwers, Holier-Than-Thou prudes, humorless virgins, persons with chronic neck or back pain, pearl-clutching bitties, those who disparage crude humor or vulgarity in their many forms, closed-minded people with sticks up their asses, or anyone under the age of 18. The vile, base language and shocking, unholy sexual acts contained herein are not condoned by anyone with a lick of sense and should certainly not be reproduced without proper training and protection. The potty-mouthed and perpetually horny "heroinie" (the term is used loosely) of this book does not resemble a normal, well-adjusted, or remotely believable person in any way, shape, or form. The author acknowledges that the characters in this book are shallow and two-dimensional; the plot is both ridiculous and insipid. She makes no apologies for any of it. * Readers are strongly advised to wear latex gloves whilst reading to minimize contamination risks. Free-spirited musician Letty Dillinger adheres to a strict, "no strings attached" policy when it comes to men. After a wild night of unabashed sex in a fancy hotel room, she never expects to see the adventurous stud she dubs "Shades" again. When her all-girl rock trio books a tour at the last minute as the opening act for their archenemies, Letty's shocked to discover she knows the competition's new lead singer. Intimately, Shades is no longer a one-night stand. Now he's the guy she has to one-up on stage every night for the sake of her career. Sharing close quarters on a bus with her sexy nemesis and his bad-boy buddies puts Letty's Golden Rule to the test. On this tour, guitar strings aren't the only things being played. And when heartstrings are pulled too hard, they're bound to snap sooner or later.

Tumours of the hand are highly varied, their only common feature being their location in an organ in which preservation of sensation and mobility must be our primary concern. Although the subject of numerous studies, they are not well known to the majority of practitioners, as most of these studies deal with only one type of tumour. Now, however, we have a book devoted entirely to these tumours as a whole, with a clear and logical approach to the clinical features, histology, differential diagnosis and treatment of each type, together with an extensive bibliography. The need for such a work - one I believe to be unique of its kind - has long been felt, for tumours of the hand often raise difficult problems of diagnosis, prognosis and treatment. As regards differential diagnosis, this book is plainly very useful; it can be consulted like a classification. In recent years, diagnosis has been improved by new methods of investigation, such as the mography, scintigraphy, arteriography and serial angiography, etc. Though very expensive, the use of these sophisticated techniques sometimes proves valuable for the diagnosis of certain bony or vascular tumours that would otherwise be difficult to approach. Such methods should not be overused; when the lesion is easily accessible, biopsy is the correct procedure. In every case, biopsy provides the only certain method of diagnosis, even though histological interpretation may be difficult and calls for great experience; the penalties of error can be very serious.

All's fair in love and war... And this is war Family is just the worst. We've all got that one cousin who's a raging turdhammer. My family thinks it's me: Loki, God of Mischief Extraordinaire. But it's not. It's not even Thor, hammer references aside. It's Odin, the AIdick. Listen, I'm not mad that I woke up in a woman's body after the apocalypse. These things happen. The problem is, Odin stole my runes. You know, the ones that keep me smart, charming, and oh yeah, immortal. With the AIdick cockblocking my every move, a frenemy chicken interfering in my biz, and the strange, delicious feelings this new body has for the knight-in-modern armor who keeps coming to my rescue, I'll need every weapon in my war chest (which is bodiciously big—gods, how do you ladies sleep on these things?) if I'm going to survive. Although, I've never been one for the bare minimum. Why only survive when I can thrive? If Odin thought Ragnarok was bad, he's in for the ride of his afterlife when he gets a load of the new me. Book 1 in the Asgard Awakening urban fantasy comedy series

When a two day-old Hawaiian monk seal pup is attacked and abandoned by his mother on a beach in Kauai, environmental officials must decide if they should save the newborn animal or allow nature to take its course. But as a member of the most endangered marine mammal species in U.S. waters, Kauai Pup 2, or KP2, is too precious to lose, and he embarks on an odyssey that will take him across an ocean to the only qualified caretaker to accept the job, eminent wildlife biologist Dr. Terrie M. Williams. The local islanders see KP2 as an honored member of their community, but government agents and scientists must consider the important role he could play in gathering knowledge and data about this critically endangered and rare species. Only 1,100 Hawaiian monk seals survive in the wild; if their decline continues without intervention, they face certain extinction within fifty years. In a controversial decision, environmental officials send KP2 to Williams's marine mammal lab in Santa Cruz, California, where she and her team monitor his falling eyesight and gather crucial data that could help save KP2's species. But while this young seal is the subject of a complex environmental struggle and intense media scrutiny, KP2 is also a boisterous and affectionate animal who changes the lives of the humans who know and care for him—especially that of Williams. Even as she unravels the secret biology of monk seals by studying his behavior and training him, Williams finds a kindred spirit in his loving nature and resilient strength. Their story captures the universal bond between humans and animals and emphasizes the ways we help and rely upon one another. The health of the world's oceans and the survival of people and creatures alike depend on this ancient connection. The Odyssey of KP2 is an inside look at the life of a scientist and the role that her research plays in the development of conservation efforts, bringing our contemporary environmental landscape to life. It is also the heartwarming portrait of a Hawaiian monk seal whose unforgettable personality never falters, even as his fate hangs in the balance.

"Anst, dark secrets, and off the charts sexiness abound in this twisty installment of the Briarwood Academy Series. First love never sounded so hot and good. Ilsa never disappoints." Shanora Williams, NYT bestselling author "Cuba is hot, delicious, and intoxicating, the perfect book boyfriend. Be prepared for a heartbreaking yet addictive read."
