Once again, Principles of Managerial Finance brings you a user friendly text with strong pedagogical features and an easy-to-understand writing style. The new edition continues to provide a proven learning system that integrates pedagogy with concepts and practical applications, making it the perfect learning tool for today's students. The book concentrates on the concepts, techniques and practices that are needed to make key financial decisions in an increasingly competitive business environment. Not only does this text provide a strong basis for further studies of Managerial Finance, but it also incorporates a personal finance perspective. The effect is that students gain a greater understanding of finance as a whole and how it affects their day-to-day lives; it answers the question "Why does finance matter to ME?" By providing a balance of managerial and personal finance perspectives, clear exposition, comprehensive content, and a broad range of support resources, Principles of Managerial Finance will continue to be the preferred choice for many introductory finance courses.

Despite 40 years of aggressive pharmaceutical and surgical interventions, coronary artery disease (CAD) remains the number one killer of women and men in Western civilization. When it comes to CAD, prevention is easier than cure, and if CAD does present itself, a combination of conventional and alternative methodologies can truly make a difference

The use of comparisons to explain, analyze and understand social and economic phenomena is recognized as a valuable social science tool. This textbook deals with the differences in management and organization between nations and their effects on multinational enterprises. In comparing management practice across the world, the authors cover themes such as national cultures, diversity and globalization. Students are guided through the key business disciplines, providing a broad introduction to the field and including truly global coverage. With student and instructor friendly resources such as chapter summaries, mini-case scenarios, larger case studies and power-point slides, this book is core reading for students of international business and international management.

An integrative approach to play therapy blending various therapeutic treatment models and techniques Reflecting the transition in the field of play therapy from a "one size fits all" approach to a more eclectic framework that integrates more than one perspective, Integrative Play Therapy explores methods for blending the best theories and treatment techniques to resolve the most common psychological disorders of childhood. Edited by internationally renowned leaders in the field, this book is the first of its kind to look at the use of a multi-theoretical framework as a foundation for practice. With discussion of integrative play treatment of children presenting a wide variety of problems and disorders—including aggression issues, the effects of trauma, ADHD, anxiety, obsessive-compulsive disorders, social skills deficits, medical issues such as HIV/AIDS, and more!the book provides guidance on: Play and group therapy approaches Child-directed play therapy with behavior management training for parents Therapist-led and child-led play therapies Cognitive-behavioral therapy with therapeutic storytelling and play therapy Family therapy and play therapy Bibliotherapy within play therapy An essential resource for all mental health professionals looking to incorporate play therapy into treatment, Integrative Play Therapy reveals unique flexibility in integrating theory and techniques, allowing practitioners to offer their clients the best treatment for specific presenting problems.

Since the publication of the acclaimed second edition of Handbook of Diagnosis and Treatment of DSM-IV-TR Personality Disorders, much has changed in how the personality disorders are understood and treated. However, like its previous editions, this new edition is a hands-on manual of the most current and effective, evidence-based assessment and treatment interventions for these challenging disorders. The beginning chapters describes several cutting-edge trends in the diagnosis, case conceptualization, and treatment of them. Then, specific chapters focus on evidence-based diagnosis and treatment interventions for each of the 10 DSM-5 personality disorders. Emphasized are the most recent developments from Cognitive Behavior Therapies, Dialectical Behavior Therapy, Cognitive Behavior Analysis System of Psychotherapy, Pattern-Focused Psychotherapy, Mindfulness, Schema Therapy, Transference Focused Psychotherapy, and Mentalization-Based Treatment. As in previous editions, extensive case material is used to illustrate key points of diagnosis and treatment.

In this book Michael Eysenck, one of the UK's most eminent and leading psychologists, provides a unique approach to Introductory Psychology.

This book addresses the psychosocial and medical issues of forced migration due to war, major disasters and political as well as climate changes. The topics are discussed in the context of public health and linked to organizational, legal and practical strategies that can offer guidance to professionals, as well as governmental and non-governmental organizations. Both internal and international displacement present substantial challenges that require new solutions and integrated approaches. Issues covered include an overview of current health challenges in the new refugee crises: medicine and mental health in disaster areas, long-term displacement and mental health, integration of legal, medical, social and health economic issues, children and unaccompanied minors, ethical challenges in service provision, short and long-term issues in host countries, models of crises intervention, critical issues, such as suicide prevention, new basic and minimal intervention models adapted to limited resources in psychosocial and mental health care, rebuilding of health care in post-disaster/conflict countries, training and burn-out prevention. The book was developed in collaboration with the World Psychiatric Association, and is endorsed by Fabio Grandi (UN High Commissioner for Refugees), Manfred Nowak (former UN Special Rapporteur for Torture), and Jorge Aroche (President of IRCT).
