

Intuitionistic Fuzzy Multicriteria Group Decision Making

As recognized, adventure as without difficulty as experience nearly lesson, amusement, as competently as contract can be gotten by just checking out a books **intuitionistic fuzzy multicriteria group decision making** then it is not directly done, you could acknowledge even more in the region of this life, something like the world.

We pay for you this proper as with ease as easy way to get those all. We meet the expense of intuitionistic fuzzy multicriteria group decision making and numerous ebook collections from fictions to scientific research in any way. accompanied by them is this intuitionistic fuzzy multicriteria group decision making that can be your partner.

Intuitionistic Fuzzy Multicriteria Group Decision

This study presents a multi-criteria group decision making for evaluation of supplier using intuitionistic fuzzy TOPSIS. Intuitionistic fuzzy sets are suitable way to deal with uncertainty. In the evaluation process, the ratings of each alternative with respect to each criterion and the weights of each criterion were given as linguistic terms characterized by intuitionistic fuzzy numbers.

A multi-criteria intuitionistic fuzzy group decision ...
In this paper, we propose a new MCGDM approach

combining intuitionistic fuzzy sets (IFSs) and the Characteristic Object Method (COMET) for solving the group decision making (GDM) problems. The COMET method is resistant to the rank reversal phenomenon, and at the same time it remains relatively simple and intuitive in practical problems.

Intuitionistic Fuzzy Sets in Multi-Criteria Group Decision ...

MCGDM approach combining intuitionistic fuzzy sets (IFSs) and the Characteristic Object Method (COMET) for solving the group decision making (GDM) problems. The COMET method is resistant to the rank reversal phenomenon, and at the same time it remains relatively simple and intuitive

Intuitionistic Fuzzy Sets in Multi-Criteria Group Decision ...

The multicriteria intuitionistic fuzzy group decision-making (MCIFGDM) method for sustainability ranking of biofuel production pathways was developed in this section, and the MCIFGDM method was based on the similarity measure.

A multicriteria intuitionistic fuzzy group decision- making ...

Thus, plant location selection problem is a multicriteria decision-making problem involving several conflicting criteria on which decision makers' knowledge is vague and imprecise. Therefore, in this

Access Free Intuitionistic Fuzzy Multicriteria Group Decision Making

study, the elimination and choice translating reality (ELECTRE) method is proposed with intuitionistic fuzzy sets for selection of appropriate plant location in group decision-making environment to tackle uncertainty of the information provided by decision makers and a plant location ...

A multicriteria intuitionistic fuzzy group decision making ...

An intuitionistic fuzzy multicriteria group decision making method with GRA is given. IFWA operator is utilized to aggregate individual opinions into a group opinion. Intuitionistic fuzzy entropy is used to obtain the entropy weights of the criteria. GRA is applied to the ranking and selection of alternatives. An example for personnel selection is given to illustrate the proposed method.

A GRA-based intuitionistic fuzzy multi-criteria group ...
Multicriteria group decision making with ELECTRE III method by interval-valued intuitionistic fuzzy information Abstract Many real world problems can be associated with multicriteria decision making. These problems are often characterized by a high degree of uncertainty. Interval-valued intuitionistic fuzzy sets are a generalized

Multicriteria group decision making with ELECTRE III ...
Hung and Chen applied intuitionistic fuzzy sets to a new fuzzy TOPSIS decision making model, using the

entropy weight for dealing with multicriteria decision making problems under intuitionistic fuzzy environment. Ye and Park et al. developed different frameworks for the TOPSIS method under IVIF data.

Multicriteria group decision making with ELECTRE III ...
Group decision makings . Abstract. The aim of this paper is to develop a novel approach for multiple attributes group decision making, in which the decision information, provided by multiple decision makers, is presented in the form of interval-valued intuitionistic fuzzy numbers. First, the aggregated information matrix

The Application of TOPSIS Method to Group Decision Making ...

An effective decision making approach based on VIKOR and Choquet integral is developed to solve multicriteria group decision making problem with conflicting criteria and interdependent subjective preference of decision makers in a fuzzy environment where preferences of decision makers with respect to criteria are represented by interval-valued intuitionistic fuzzy sets.

Interval-Valued Intuitionistic Fuzzy Multicriteria Group

...

In the first case study, the supply chain selection problem investigated by Wei and Wang is used as the benchmark, who also developed a decision making

method using intuitionistic trapezoidal fuzzy numbers. In this problem, the alternatives are five suppliers, evaluated according to four criteria: product quality (C 1), service (C 2), delivery (C 3) and price (C 4).

IF-TODIM: An intuitionistic fuzzy TODIM to multi-criteria ...

In Section 5, an approach to intuitionistic fuzzy multicriteria decision making is given based on the proposed IFHGIA operator. In Section 6, a numerical example is illustrated to show the feasibility and validity of the new approach, and the comparison between the work of this paper and other corresponding works is presented systematically.

Intuitionistic fuzzy geometric interaction averaging ...
Tao Li, Liyuan Zhang and Ziyu Yang. Abstract—During the process of decision making with intuitionistic fuzzy preference relation (IFPR), the underlying normalized intuitionistic fuzzy priority weight vector can be obtained by a mathematical programming model. In the multicriteria group decision making (GDM) problem, it is reasonable to assume that different decision makers have different criteria weights, this is because that each decision maker has his/her own opinions and preferences ...

Multi-criteria Group Decision Making Based on the ...
This study aims to propose the concept of intuitionistic fuzzy parameterized intuitionistic fuzzy
