Just in Time Inventory System | Kanban Zone

Kanban is a concept that relates to obtaining materials or required items "just in time" for their introduction into the assembly or process. The system of JIT or the just in time process was initiated by the Japanese firm Toyota in the 1940s. Kanban is a system to signal a need for action. This can be done by cards on a board (which is the traditional way) or by other devices that are used as markers, indicating the need to take action.

system". Mark Keaton. Production and Inventory Management Journal Third Quarter 1995 "Examining a Kanban material acquisition system". Michele Markey IM.

Kanban Just-In-Time - Monografias.com

This is the same philosophy encapsulating the just-in-time (JT) inventory strategy, also known as the Toyota Production System. This strategy aims at improving a business's return on investment by cutting in-process inventory and associated carrying costs. One key element of the system is Kanban; This Japanese term is a compound word, where 'kan' means 'visual', and 'ban' means 'cards'; literally put, Kanban refers to visual cards.

Difference Between JIT and Kanban | Difference Between

Just-in-time production was pioneered at Toyota, where executives say the original intention was to make maximum use of capital in a relatively cash-poor company.
