The Kia Carens is a compact MPV launched in 1999 by the Korean manufacturer Kia Motors, now in its third generation, and marketed worldwide under various nameplates – prominently as the Kia Rondo. In 2006, Kia presented a second generation Carens for model year 2007. The Carens/Rondo followed Kia's introduction at the 2005 Frankfurt Motor Show of the Multi-S, essentially the Carens/Rondo in concept form – the S standing for Sporty, Spacious and Smart. The Multi-S differed significantly ...

The first, and only, inside story of one of the greatest bands in rock history—Dire Straits—as told by founder member and bassist John Illsley One of the most successful music acts of all time, Dire Straits filled stadiums around the world. Their album sold hundreds of millions of copies and their music—classics like “Sultans of Swing,” “Romeo and Juliet,” “Money for Nothing,” and “Brothers in Arms”—is still played on every continent today. There was, quite simply, no bigger band on the planet throughout the eighties. In this powerful and entertaining memoir, founding member John Illsley gives the inside track on the most successful rock band of their time. From playing gigs in the spit-and-sawdust pubs of south London, to hanging out with Bob Dylan in LA, Illsley tells the story of the band with searching honesty, soulful reflection, and wry humor. Starting with his own unlikely beginnings in Middle England, he recounts the band's rise from humble origins to the best-known venues in the world, the working man's clubs to Madison Square Garden, sharing gigs with wild punk bands to rocking the Live Aid stage at Wembley. And woven throughout is an intimate portrait and tribute to his great friend Mark Knopfler, the band's lead singer, songwriter, and remarkable guitarist. Tracing an idea that created a phenomenal musical legacy, an extraordinary journey of joy and pain, companionship and surprises, this is John Illsley's life in Dire Straits.

A former stripper turned suburban housewife is exposed as a brutal killer in this shocking true crime tale of a loving husband beheaded in Phoenix. Phoenix, Arizona, 2004. Marjorie Orbin filed a missing person's report on her husband, Jay. She claimed that the successful art dealer had left town on business after celebrating their son's birthday more than a month before. But no one believed that Jay would abandon the family he loved. Authorities suspected foul play . . . As the search for Jay made local headlines, Marjorie's story starting coming apart. Why did she wait so long before going to

police? If Jay was away on business, why were there charges made to his credit card in Phoenix? Then, the unthinkable happened. Jay's headless, limbless torso was discovered on the outskirts of the Phoenix desert—and all evidence pointed to Marjorie as the killer. The investigation revealed surprising details about her life—six previous marriages, an ongoing affair with a man from her gym, and alleged ties to the New York mafia.

How the asset—anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. In this book, scholars from a range of disciplines argue that the asset—meaning anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. An asset can be an object or an experience, a sum of money or a life form, a patent or a bodily function. A process of assetization prevails, imposing investment and return as the key rationale, and overtaking commodification and its speculative logic. Although assets can be bought and sold, the point is to get a durable economic rent from them rather than make a killing on the market. Assetization examines how assets are constructed and how a variety of things can be turned into assets, analyzing the interests, activities, skills, organizations, and relations entangled in this process. The contributors consider the assetization of knowledge, including patents, personal data, and biomedical innovation; of infrastructure, including railways and energy; of nature, including mineral deposits, agricultural seeds, and “natural capital”; and of publics, including such public goods as higher education and “monetizable social ills.” Taken together, the chapters show the usefulness of assetization as an analytical tool and as an element in the critique of capitalism. Contributors Thomas Beauvisage, Kean Birch, Veit Braun, Natalia Buier, Béatrice Cointe, Paul Robert Gilbert, Hyo Yoon Kang, Les Levidow, Kevin Mellet, Sveta Milyaeva, Fabian Muniesa, Alain Nadaï, Daniel Neyland, Victor Roy, James W. The American edition of the revelatory Swedish book Spotify Untold, the basis of the new Netflix Original series slated for 2022! "Two excellent Swedish journalists recount the historic rise of the company that changed modern music not just as a riveting business tale, but as a lesson in tech geopolitics. Spotify's Daniel Ek shows why Silicon Valley does not always win."—David Kirkpatrick, New York Times bestselling author of The Facebook Effect Steve Jobs tried to stop this moment from ever happening. Google and Microsoft made bids to preempt it. The music industry blocked it time and again. Yet, on a summer's eve in 2011, the whiz kid CEO of a Swedish start-up celebrated his company's US launch. In the midst of the Apple-Android tech war and a music label crusade against piracy and illegal downloading, Spotify withdrew the battle lines, sent shockwaves through Silicon Valley, and got the hardline executives at Universal, Sony, and Warner to sign with its "free-mium" platform. In The Spotify Play, now adapted into an upcoming Netflix Original series, Swedish investigative tech journalists Sven Carlsson and Jonas Leijonhufvud, who covered the company from its inception, draw upon hundreds of interviews, previously untapped sources, and in-depth reporting on figures like Mark Zuckerberg, Sean Parker, Steve Jobs, Taylor Swift, Jay-Z, Pony Ma Huateng, and Jimmy Iovine. They have captured the riveting David vs. Goliath story of a disruptive innovator who played the industry giants in a quest to revolutionize the consumption of sound, building today's largest online source of audio, with more than 50 million songs, one million-plus podcasts, and over 300 million users.

Since the beginnings of the Porsche brand, it has not only been men who accompanied and substantiated the automobile manufacturer's fame. This book devotes itself for the first time to the women who made an indelible impression on the Porsche name. From the exceptionally gifted race drivers Rita Rampinelli and Annie Bousquet and the legendary Porsche employee Evi Butz to artists like Janis Joplin or athletes like Martina Navratilova, this book invites the reader to partake in an exciting time travel through the concern's history: Contemporary photographs and documents tell the story of very special women and their Porsche sports cars. Published as part of the Edition Porsche Museum series. English and German text.

"Alice Adams writes with beautiful economy, an infallible sense of the telling detail. Her place in the company of John Updike and Mary McCarthy." --San Francisco Chronicle Alice Adams' reputation as a short story writer continued to grow with each collection. The stories in her third collection revolve for the most part around the theme of travel. The stories are about people in search of fresh experience, the inspiration of art, the pleasure of new relationships . . . people opening up to the accidental magic of a foreign place, or returning to scenes of childhood to forgive the past. Included are "Alaska," "Time in Santa Fe," "Barcelona," "Molly's Dog," "My First and Only House."

At the beginning of the 1990s, Korean firms embarked on an impressive wave of direct investment abroad. This dramatic multinationalization was considered as yet another sign of Korea's remarkable economic performance, especially as a high proportion of the foreign ventures were located in advanced countries. But this unbalanced quest for globalization actually tested the 'Korean model' to its limits; after the 1997 crisis a new policy prepared the way for a surge of inward investment. Using empirical tests and case-studies, this collection shows that Korean groups have invested in developed countries to jump over trade barriers, but also to source advanced technology and marketing capabilities. Moreover, their ambitious strategies have been stimulated by oligopolistic rivalry among the chaebols. From a policy perspective, the book provides an original discussion of national ownership by questioning the substitutability between inward and outward foreign investment and its relationship with the evolution

of the national innovation system. By shedding light on the pattern of Korea's internationalization, these essays make a valuable contribution to the theory of international production and provide important insights for the current policy debates on globalization and innovation-led growth.

In *Emancipation's Daughters*, Riché Richardson examines iconic black women leaders who have contested racial stereotypes and constructed new national narratives of black womanhood in the United States. Drawing on literary texts and cultural representations, Richardson shows how five emblematic black women—Mary McLeod Bethune, Rosa Parks, Condoleezza Rice, Michelle Obama, and Beyoncé—have challenged white-centered definitions of American identity. By using the rhetoric of motherhood and focusing on families and children, these leaders have defied racist images of black women, such as the mammy or the welfare queen, and rewritten scripts of femininity designed to exclude black women from civic participation. Richardson shows that these women's status as national icons was central to reconstructing black womanhood in ways that moved beyond dominant stereotypes. However, these formulations are often premised on heteronormativity and exclude black queer and trans women. Throughout *Emancipation's Daughters*, Richardson reveals new possibilities for inclusive models of blackness, national femininity, and democracy.
