Theodore J. Karamanski’s sweeping maritime history demonstrates the far-ranging impact that the tools and infrastructure developed for navigating the Great Lakes had on the national economies, politics, and environment of continental North America. Synthesizing popular as well as original historical scholarship, Karamanski weaves a colorful narrative illustrating how disparate private and government interests transformed these vast and dangerous waters into the largest inland water transportation system in the world. Karamanski explores both the navigational and sailing tools of First Nations peoples and the dismissive and foolhardy attitude of early European maritime sailors. He investigates the role played by commercial boats in the Underground Railroad, as well as how the federal development of crucial navigational resources exacerbated sectionalism in the antebellum United States. Ultimately Mastering the Inland Sea shows the undeniable environmental impact of technologies used by the modern commercial maritime industry. This expansive story illuminates the symbiotic relationship between infrastructure investment in the region’s interconnected waterways and North America’s lasting economic and political development.

At White River Light Station in Whitehall, Sarah Robinson still keeps a clean and tidy house, and a mysterious young girl at the Marquette Harbor Lighthouse seeks out other children and female companions. Countless spirits remain between Whitefish Point and Point Iroquois in an area well known for its many tragic shipwrecks. Join author and Promote Michigan founder Dianna Stampfler as she recounts the tales from Michigan ’ s ghostly beacons. “ Haunting tales of Michigan ’ s lighthouses . . . Her stories come from lighthouse museums, friends and family. ” —Great Lakes Echo

Lighthouses have long been the symbol of salvation, warning sailors away from dangerous rocks and shallow waters. Along the Great Lakes, America ’ s inland seas, lighthouses played a vital role in the growth of the nation. They shepherded settlers traveling by water to places that had no roads. These beacons of light required constant tending even in remote and often dangerous places. Brave men and women battled the elements and loneliness to keep the lights shining. Their sacrifice kept goods and immigrants moving. Seven romances set between 1883 and 1911 bring hope to these lonely keepers and love to weary hearts. Anna ’ s Tower by Pegg Thomas 1883—Thunder Bay Island Lighthouse Anna Wilson’s plan to be the next lighthouse keeper is endangered when Maksim Ivanov is shipwrecked on Thunder Bay Island. Handsome and capable, he could steal her dream. Or provide a new one. Beneath a Michigan Moon by Candice Sue Patterson 1885—New Presque Isle Lighthouse Ava Ryan ’ s father has passed, leaving her alone, and ill, to tend the light with nowhere else to go. Logging foreman Benjamin Colfax needs the height of the lighthouse to determine the best cutting route, but he senses something amiss in Ava and her determination to remain reclusive. Can he get her to open up, or will she keep herself locked away? Safe Haven by Rebecca Jepson 1892—Old Mission Point Lighthouse Rose Miller was found on the lighthouse doorpstep as an infant, and now she must hide her quest to find the child who left her there from Captain Nathan Perry, the man she loves to hate. Love ’ s Beacon by Carrie Fancett Pagels 1898—Round Island Lighthouse Valerie Fillman’s best hope for a future lies on the tiny island that holds her worst memories. Can Paul Sholtus, the new lightkeeper, and his daughter help bring healing? And love? The Last Memory by Kathleen Rouser 1899—Mackinac Point Lighthouse Natalie Brooks loses her past to amnesia, and Cal Waterson, the lighthouse keeper who rescues her, didn ’ t bargain on risking his heart—when her past might change everything. The Disappearing Ship by Lena Nelson Dooley 1902—Whitefish Point Lighthouse Romance and mystery collide at Whitefish Point Lighthouse when unemployed doctor Norma Kimbell and Drake Logan, owner of a steamship line, search for evidence of a supposed shipwreck. The Wrong Survivor by Marilyn Turk 1911—Au Sable Lighthouse Lydia Palmer’s dream for happiness as a lighthouse keeper’s wife shatters when her fiancé Nathan Drake drowned in a shipwreck, but his brother Jesse survived.

A Michigan writer recounts the chilling tales of the UP ’ s spectral history. Michigan’s beautiful Upper Peninsula lays host to some of the state’s most spine-tingling ghost stories. At Old Victoria, a ghostly apparition continues to rock in her favorite chair. Visitors can still hear the screams of miners trapped and killed in the wreckage of the Mansfield Mine disaster. Trampled to death over false claims of fire, the victims of the Italian Hall Disaster linger on in Calumet. And Mackinac is home to more than one hundred ghosts, making the island one of the state’s most haunted places.

On Thursday, November 6, the Detroit News forecasted “ moderate to brisk ” winds for the Great Lakes. On Friday, the Port Huron Times-Herald predicted a “ moderately severe ” storm. Hourly the warnings became more and more dire. Weather forecasting was in its infancy, however, and radio communication was not much better; by the time it became clear that a freshwater hurricane of epic proportions was developing, the storm was well on its way to becoming the deadliest in Great Lakes maritime history. The ultimate story of man versus nature, November ’ s Fury recounts the dramatic events that unfolded over those four days in 1913, as captains eager—or at times forced—to finish the season tried to outrun the massive storm that sank, stranded, or demolished dozens of boats and claimed the lives of more than 250 sailors. This is an

account of incredible seamanship under impossible conditions, of inexplicable blunders, heroic rescue efforts, and the sad aftermath of recovering bodies washed ashore and paying tribute to those lost at sea. It is a tragedy made all the more real by the voices of men—now long deceased—who sailed through and survived the storm, and by a remarkable array of photographs documenting the phenomenal damage this not-so-perfect storm wreaked. The consummate storyteller of Great Lakes lore, Michael Schumacher at long last brings this violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt to this day.

The oldest freshwater port in the United States is nestled firmly into the southeastern shore of Lake Ontario at Oswego, New York. Since 1822, four lighthouses have guided the mariner's safe passage to shore, and just as those lighthouses stood watch, so did the men and women who manned them. Members of the US Life-Saving Service, Revenue Cutter Service, and Coast Guard followed and remained vigilant in the face of danger, always ready to assist those in distress on the inland sea. Lighthouses and Life Saving at Oswego allows readers to step back in time and explore the iconic landmarks and exemplary individuals that afforded Oswego its commercial prominence for nearly two centuries.
