All work covered in the Pupil's Book is reinforced by exercises in the workbook. Designed to be introduced and explained by the teacher and then to be completed independently, either in the classroom or for homework, it allows children to work at their own pace giving teachers the opportunity to see what children can achieve when working alone.

The Student's Book contains twelve units. Each requires eight teaching sessions and is designed to be taught over a two-week period. The key skills of reading, writing, speaking and listening are consistently covered throughout the course and are underpinned by the firm foundation of the grammar syllabus.
