Memoirs have been written since the ancient times, as shown by Julius Caesar 's Commentarii de Bello Gallico, also known as Commentaries on the Gallic Wars. In the work, Caesar describes the battles that took place during the nine years that he spent fighting local armies in the Gallic Wars.

[Memoir - Wikipedia](#)

A memoir is defined as any book that comes from a collection of memories, from the French *mémoire*. But, it refers to more than that—any time a person writes from their own personal knowledge or special sources. A great memoir takes a reader into a different world, bringing them along as the author faces struggles big and small.

A memoir is a historical account or biography written from personal knowledge or special sources. It’s a book about your life, the lessons learned, and key moments that shaped who you are. We all typically think of a memoir and cringe a little at the idea of a book about someone else’s life. But that’s not all a memoir is!

An autobiography is your life story from birth to the present. A memoir is theme-oriented with anecdotes from your life that buttress a specific theme. Too many authors write a memoir because they believe their lives are so interesting that even strangers would enjoy a detailed account. Don’t misunderstand, maybe you are interesting.

Memoirs Synonyms, Memoirs Antonyms | Thesaurus.com

Usually memoirs. an account of one's personal life and experiences; autobiography. the published record of the proceedings of a group or organization, as of a learned society. a biography or biographical sketch.

Completed just days before his death and hailed by Mark Twain as "the most remarkable work of its kind since the Commentaries of Julius Caesar," this is the now-legendary autobiography of ULYSSES SIMPSON GRANT (1822-1885), 18th president of the United States and the Union general who led the North to victory in the Civil War. Though Grant opens with tales of his boyhood, his education at West Point, and his early military career in the Mexican-American war of the 1840s, it is Grant's intimate observations on the conduct of the Civil War, which make up the bulk of the work, that have made this required reading for history students, military strategists, and Civil War buffs alike. This unabridged edition features all the material that was originally published in two volumes in 1885 and 1886, including maps, illustrations, and the text of Grant's July 1865 report to Washington on the state of the armies under his command.

These adventures and further travels through India and war-torn China left him with a deep belief in the rights of the individual and the vital role of government in protecting these rights.

Born into one of the wealthiest families in America—he was the youngest son of Standard Oil scion John D. Rockefeller, Jr., and the celebrated patron of modern art Abby Aldrich Rockefeller—David Rockefeller has carried his birthright into a distinguished life of his own. His dealings with world leaders from Zhou Enlai and Mikhail Gorbachev to Anwar Sadat and Ariel Sharon, his service to every American president since Eisenhower, his remarkable world travels and personal dedication to his home city of New York—here, the first time a Rockefeller has told his own story, is an account of a truly rich life.

"None of this is real and all of it is true." --Jim Carrey Meet Jim Carrey. Sure, he's an insanely successful and beloved movie star drowning in wealth and privilege--but he's also lonely. Maybe past his prime. Maybe even . . . getting fat? He's tried diets, gurus, and cuddling with his military-grade Israeli guard dogs, but nothing seems to lift the cloud of emptiness and ennui. Even the sage advice of his best friend, actor and dinosaur skull collector Nicolas Cage, isn't enough to pull Carrey out of his slump. But then Jim meets Georgie: ruthless ingénue, love of his life. And with the help of auteur screenwriter Charlie Kaufman, he has a role to play in a boundary-pushing new picture that may help him uncover a whole new side to himself--finally, his Oscar vehicle! Things are looking up! But the universe has other plans. *Memoirs and Misinformation* is a fearless semi-autobiographical novel, a deconstruction of persona. In it, Jim Carrey and Dana Vachon have fashioned a story about acting, Hollywood, agents, celebrity, privilege, friendship, romance, addiction to relevance, fear of personal erasure, our "one big soul," Canada, and a cataclysmic ending of the world--apocalypses within and without.

Deceptively simple and surprisingly addictive, *Not Quite What I Was Planning* is a thousand glimpses of humanity—six words at a time. *One Life. Six Words. What's Yours?* When Hemingway famously wrote, "For Sale: baby shoes, never worn," he proved that an entire story can be told using a half dozen words. When the online storytelling magazine SMITH asked readers to submit six-word memoirs, they proved a whole, real life can be told this way too. The results are fascinating, hilarious, shocking, and moving. From small sagas of bittersweet romance ("Found true love, married someone else") to proud achievements and stinging regrets ("After Harvard, had baby with crackhead"), these terse true tales

relate the diversity of human experience in tasty bite-sized pieces. From authors Jonathan Lethem and Richard Ford to comedians Stephen Colbert and Amy Sedaris, to ordinary folks around the world, everyone has a six-word story to tell.

MEMOIRS is as full of Neruda's passionate, volatile and profoundly generous personality as lovers of his poetry would expect. Lorca, Vallejo, Picasso, Gandhi, Mao Tse-tung, Castro and Allende all appear here too, making Neruda's a life story of truly universal reach and significance, as well as the richest account we have of Latin American history, politics, art and literature.

The story of Edward Teller is the story of the twentieth century. Born in Hungary in 1908, Teller witnessed the rise of Nazism and anti-Semitism, two world wars, the McCarthy era, and the changing face of big science. A brilliant and controversial figure whose work on nuclear weapons was key to the American war effort, Teller has long believed in freedom through strong defense, a philosophy reflected in his stance on arms control and nuclear policy. These extraordinary recollections at last reveal the man behind the headlines-passionate and humorous, devoted and loyal. In clear and compelling prose, Teller tells of the people, events, and ideas that shaped him as a scientist, beginning with his early love of music and math, and continuing with his study of quantum physics with Werner Heisenberg. Present at many of the pivotal moments in modern science, Teller also describes his friendships with some of the century's greatest minds-Einstein, Bohr, Fermi, Szilard, von Neumann, Oppenheimer-and offers an honest account of the development of the atomic and hydrogen bombs. He also offers a moving portrait of his childhood, his marriage and family life, and his friendship with physicist Maria Mayer. Writing about those aspects of his life that have had important public consequences-from his conservative politics to his relationships with scientists and presidents-Teller reveals himself to be a man with deep beliefs about liberty, security, and the moral responsibility of science.

"Under Spark Elf's direction, Santa delivers presents in the allotted twenty-four hours only to arrive at the North Pole with a stowaway in the toy bag, a family's beloved dog"--

This e-book box set includes the complete memoirs of Henry Kissinger, detailing his life and work. *White House Years*: One of the most important books to come out of the Nixon Administration, *White House Years* covers Henry Kissinger's first four years (1969–1973) as Assistant to the President for National Security Affairs. *Years of Upheaval*: This second volume of Henry Kissinger's monumental memoirs covers his years as President Richard Nixon's Secretary of State (1972–1974), including the ending of the Vietnam War, the 1973 Middle East War and oil embargo, Watergate, and Nixon's resignation. *Years of Upheaval* opens with Dr. Kissinger being appointed Secretary of State. *Years of Renewal*: This third and final volume of memoirs completes a major work of contemporary history. The third & final volume begins with the resignation of Nixon and takes the reader through the years of Ford's administration, in which Kissinger continued to play a decisive role. *Years of Renewal* is the triumphant conclusion of a major achievement and a book that will stand the test of time as a historical document of the first rank.
