If you have any files you want to save, copy them to another storage device. Open the Disk Utility app on your Mac using one of the following methods, depending on the type of disk or volume you want to erase:. If you want to erase your startup disk: Start up from macOS Recovery, then choose Disk Utility from the Recovery window. If you want to erase any other type of storage device: Double ...

Erase and reformat a storage device in Disk Utility on Mac ...

Partition a physical disk in Disk Utility on Mac. Partitioning a disk divides it into individual sections known as containers. However, with APFS, you shouldn't partition your disk in most cases.Instead, create multiple APFS volumes within a single partition.With the flexible space management provided by APFS, you can even install another version of macOS on an APFS volume.
