'The Elusive Dream' demonstrates, through nuanced analysis and in-depth study, that interracial churches in fact help to perpetuate the very racial inequality they aim to abolish. The text raises provocative questions about the ongoing problem of race in the national culture.

When her ex goes missing, Zoe is swept into an international mystery that takes her from glitzy Las Vegas to the old-world charm of Italy. Zoe Hunter loves living on the edge. Free-spirited and spontaneous, she ' s built a life stringing together various freelance gigs that keep her bank account barely in the black. But when her ex, Jack, goes missing along with several million dollars from his business and the FBI zeros in on her as a person of interest, Zoe ' s life goes from delightfully unpredictable to downright frightening. Plunged into a world of fake identities, deception, and murder, she ' s afraid to trust anyone. Zoe impulsively skips town in a search for answers that takes her from Las Vegas to Italy, but instead of tracking down answers, she only uncovers more questions. Who was Jack? Is he dead or did he fake his disappearance? And, what was he mixed up in—art theft, the mafia, espionage, or all three?

"Peterson animates the history of role-playing games found in zines, from the collision of the niche audiences of war gaming and fantasy in the 60s to the extreme commercial growth of D&D in the 80s"--

While waiting for a view of her night-blooming cereus, the mild-seeming Mrs. Pollifax received urgent orders for a daring mission to aid an escape. Soon, the unlikely-looking international spy was sporting a beautiful new hat that hid eight forged passports....

Hailed for its searing emotional insights, and for the astonishing originality with which it weaves together personal history, cultural essay, and readings of classical texts by Sophocles, Ovid, Euripides, and Sappho, *The Elusive Embrace* is a profound exploration of the mysteries of identity. It is also a meditation in which the author uses his own divided life to investigate the "rich conflictedness of things," the double lives all of us lead. Daniel Mendelsohn recalls the deceptively quiet suburb where he grew up, torn between his mathematician father's pursuit of scientific truth and the exquisite lies spun by his Orthodox Jewish grandfather; the streets of Manhattan's newest "gay ghetto," where "desire for love" competes with "love of desire;" and the quiet moonlit house where a close friend's small son teaches him the meaning of fatherhood. And, finally, in a neglected Jewish cemetery, the author uncovers a family secret that reveals the universal need for storytelling, for inventing myths of the self. The book that Hilton Als calls "equal to Whitman's 'Song of Myself,'" *The Elusive Embrace* marks a dazzling literary debut.

California is a region of rich geographic and human diversity. The authors of *The Elusive Eden* masterfully balance the varying environmental and cultural forces that have shaped the history of the most populous of the United States. California ' s story is told with a narrative integrating the area ' s north/south, coastal/interior, and urban/rural dichotomies. Questions of the role that Californians of every race, ethnicity, and gender are considered, reflecting the significant contribution each has made to make California what it is. The book ' s organization follows a chronological approach, but each part begins with a feature chapter centered around a particular theme of that period. By focusing on individuals or groups affecting a given period, the authors bring California history to life and encourage deeper thought about the issues facing Californians of the time.

"The beneficial effects of Awareness through Movement and Functional Integration, the two main strands of what we now call the Feldenkrais Method, are now known to many around the world: greater health and vitality and freedom from pain and anxiety. *The Elusive Obvious: Or Basic Feldenkrais* presents a thorough explanation of the Feldenkrais Method in the words of its founder, and, as its title indicates, it throws light on the causes of health problems that are hidden in plain sight"--

A highly original account of how literature and neuroscience interact to explain the relationship between the mind, body, and brain

A woman in desperate straits ... A fearless man ...A marriage of convenience on turbulent waters ... Cerynise Kendall has been left destitute and in dire need following the death of her doting patron and protectress. A brilliant young artist tossed from her home with only the clothes on her back, Cerynise must now turn to a childhood companion for assistance - the dashing sea captain Beauregard Birmingham and beg him to provide her with passage to the Carolinas. She seeks a new home and a new life across the waters, but all depends upon the kindness of a charming adventurer who was once the object of her youthful infatuation. Beneath Birmingham ' s rugged exterior beats a heart as large and wild as the Atlantic, and Beau readily agrees to aid Cerynise - even offering her his name in marriage, albeit temporarily, to protect his long time friend from scandal. But perilous secrets, determined enemies and tempests of the sea and soul threaten their future and safe passage even as bonds of camaraderie are miraculously reforged as bonds of desire ... and affection becomes passion and love.

"In this book Easterly shows how these solutions all violate the basic principle of economics, that people - private individuals and businesses, government officials, even aid donors - respond to incentives. Easterly first discusses the importance of growth. He then analyzes the development solutions that have failed. Finally, he suggests alternative approaches to the problem.
