Capital Markets | Global U.S. Law | Linklaters

Essentially, the world's capital markets are trading floors (either real or virtual) on which cash-hungry businesses obtain funding by selling a share of their business (equity) or receiving a loan (debt) from lenders. These 'markets' are used by companies with unique financing needs which traditional bank loans cannot satisfy.

Capital markets - Chambers Associate

The International Capital Markets Review - Edition 9, This book serves two purposes – one obvious, but the other possibly less so. Quite obviously, and one reason for its continuing popularity, the book addresses the comparative law aspect of our readers ' international capital markets (ICM) workload and equips them with a reference source.
