We would like to take into account the definition of the rhetorical criticism offered by the American author Sonja K. Foss (2009, 6), according to whom: "It is a quantitative research method that is designed for the systematic investigation and explanation of symbolic acts and artefacts for the purpose of understanding rhetorical processes." From the content of this definition we can ...

Chapter 1 considers the essential reference points in the history of rhetoric. Plato, Aristotle, Cicero, Quintilian, as well as the main transformations of rhetoric up to the twentieth century, are considered in detail. Plato based his theory of rhetoric on pathos or the manipulation of the audience through its emotions.
