selling is just two letters, but embracing the former makes the latter much, much easier. Meticulously researched and filled with examples of residential and multifamily real estate professionals who have accelerated their businesses enormously by embracing the principles of Youtility marketing, this special e-book provides a groundbreaking plan for using information and helpfulness to transform the relationship between real estate pros and their customers. Based on the New York Times bestseller Youtility, this pithy e-book is a must for marketers in the real estate industry.

The difference between helping and selling is just two letters. If you're wondering how to make your products seem more exciting online, you're asking the wrong question. You're not competing for attention only against other similar products. You're competing against your customers' friends and family and viral videos and cute puppies. To win attention these days you must ask a different question: "How can we help?" Jay Baer's Youtility offers a new approach that cuts through the clutter: marketing that is truly, inherently useful. If you sell something, you make a customer today, but if you genuinely help someone, you create a customer for life.

In this must read book, Joe Sessa shares the top tips and secrets of real estate giants from the webinar series Secrets of Top Selling Agents. Barbara Corcoran, Dave Liniger, Gary Keller, Chris Smith, and others tell you exactly what you need to do to be a top selling agent! Each chapter includes advice and tips from a different real estate superstar. In the Secrets of Top Selling Agents you will learn how: Barbara Corcoran turned her real estate business into an international brand. A devastating illness forced Dave Liniger to rethink his life and change his perspective on the business. Gary Keller and Jay Papasan focus on the one thing to achieve success. Katie Lance leverages social media to bring the real estate industry into the twenty-first century. Chris Smith discovered how you can increase your GCI by 50 percent. Jay Baer created the concept of "youtility." Jimmy Mackin manages multitasking and reaching the elusive "Inbox Zero." Other real estate professionals have adapted to today's challenges. These titans of the industry will change the way you approach your real estate business.

Youtility fundamentally changes how accountants and accounting firms think about marketing and their business. Jay Baer defines "Youtility" as information and resources given away for free to build awareness and trust. Youtility creates awareness, customers, and loyalty over the long-term. Due to enormous shifts in technology and consumer behavior, customers want a new approach that cuts through the clutter: marketing that is truly, inherently useful. Darren Root provides a groundbreaking plan for using information and helpfulness to transform the relationship between companies and customers. Based on the New York Times best seller Youtility, this is the playbook for modern marketing effectiveness in the accounting industry.

Talk Triggers is the definitive, practical guide on how to use bold operational differentiators to create customer conversations, written by best-selling authors and marketing experts Jay Baer and Daniel Lemin. Word of mouth is directly responsible for 19% of all purchases, and influences as much as 90%. Every human on earth relies on word of mouth to make buying decisions. Yet even today, fewer than 1% of companies have an actual strategy for generating these crucial customer conversations. Talk Triggers provides that strategy in a compelling, relevant, timely book that can be put into practice immediately, by any business. The key to activating customer chatter is the realization that same is lame. Nobody says "let me tell you about this perfectly adequate experience I had last night." The strategic, operational differentiator is what gives customers something to tell a story about. Companies (including the 30+ profiled in Talk Triggers) must dare to be different and exceed expectations in one or more palpable ways. That's when word of mouth becomes involuntary: the customers of these businesses simply MUST tell someone else. Talk Triggers contains: • Proprietary research into why and how customers talk • More than 30 detailed case studies of extraordinary results from Doubletree Hotels by Hilton and their warm cookie upon arrival, The Cheesecake Factory and their giant menu, Five Guys Burgers and their extra fries in the bag, Penn & Teller and their nightly meet and greet sessions, and a host of delightful small businesses • The 4-5-6 learning system (the 4 requirements for a differentiator to be a talk trigger; the 5 types of talk triggers; and the 6-step process for creating talk triggers) • Surprises in the text that are (of course) word of mouth propellants Consumers are wired to discuss what is different, and ignore what is average. Talk Triggers not only dares the reader to differentiate, it includes the precise formula for doing it. Combining compelling stories, inspirational examples, and practical how-to, Talk Triggers is the first indispensable book about word of mouth. It's a book that will create conversation about the power of conversation.

These people simply want solutions to their problems. They complain via legacy channels where the likelihood of a response is highest--phone, e-mail, and company websites. Offstage haters don't care if anyone else finds out, as long as they get answers. Onstage haters. These people are often disappointed by a substandard interaction via traditional channels, so they turn to indirect venues, such as social media, online review sites, and discussion boards. Onstage haters want more than solutions--they want an audience to share their righteous indignation. Hug Your Haters shows exactly how to deal with both groups, drawing on meticulously researched case studies from businesses of all types and sizes from around the world. It includes specific playbooks and formulas as well as a fold-out poster of "the Matrix," which summarizes the best strategies for different situations.

The social web has changed the way we do business forever. The future of your company is not in measured, considered responses and carefully planned initiatives. Business today is about near-instantaneous response. About doing the best you can with extremely limited information. About every customer being a reporter, and every reporter being a customer. About winning and losing customers in real-time, every second of every day. About a monumental increase in the findable commentary about our companies. Having the time and information required to make a considered business decision is a luxury - a luxury that's quickly facing extinction. Yet business hasn't adapted to this evolution. And adapt you must. This book isn't about how to "do" social media. Instead, The Now Revolution outlines how you must retool your organization to make real-time business work for you rather than against you. Read about
